REPLACEMENTS - At the end of each Olympiad, both players have a simultaneous Replacement Phase. Steps can be added to existing blocks, and new blocks can be built.

BUILD POINTS (BP) - Both players total the value of cities under their control, including Neutral cities. These points are then expended as desired except the maximum BPs that may be spent per major city is 2x the city value, and the maximum per minor city is 1BP. Athens & Sparta have a build limit of 8BPs. **IMPORTANT:** Besieged or Blockaded cities do not provide BPs for either player.

REINFORCEMENTS - Reinforcing is adding one or more steps to existing blocks on the map. Blocks in a non-city hex cannot be reinforced. Blocks involved in a siege or blockade (attack or defense) cannot be reinforced.

NEW BLOCKS - New blocks are built from the Replacement Pool. Blocks must be built in their Home City; if enemy-held, they cannot be built. Reserve blocks are built in any friendly city, subject to BP limits (8.1).

ELIMINATED BLOCKS - Blocks are not permanently eliminated. Place them in the Replacement Pool where they can be built again normally.

DISBANDING - During the Replacement Phase, players may disband any block and return it to their replacement pool. Steps on disbanded blocks are forfeit. Disbanded blocks can be rebuilt immediately for their normal BPs. Players cannot merge blocks.
