

### STALIN'S TANKS CORRECTION NOTICE

There are two corrections to be made in the large STALIN'S TANKS counter sheet.

The German (black) counters for the IIIg, IIIj and IVd tanks are printed as having an armor class of "6". They should instead, read "G".

We recommend that you take a knife and scratch off part of the line on the "6" so that it will look like a "G" for readability.

Also, please note that the last row of half-tracks were printed in red ink. They should have been printed in black, since they are German units.

Our thanks to Richard Verrill for his help in this matter.
